

## BLOCK AND PAVER MANUFACTURES (CONCRETE PRODUCTS COLOR CARD)

### Color Cards

Please note that these colors are for concrete products manufactures such as concrete block producers. To see colors available for Ready Mix concrete, view the Solomon Integral Colors for Ready Mix color card. Disclaimer: This digital color card should be used as a general guide, not a definitive indicator of final color. Shades and hues can vary depending on screen settings. When planning a project, consult a physical color card for a better indication of potential color. Create a representative mockup before any project to better account for the effects of conditions, material, and techniques that may alter the final appearance or color.
