

“The Tradition of Leading Industry Solutions Continues”

Springfield, IL – Solomon Colors – long known for its concrete coloring solutions – is now pleased to introduce Legacy Decorative Concrete Systems, Inc., an independent subsidiary of Solomon Colors, Inc. Legacy offers a full line of decorative concrete products that carry on the tradition of durability, consistency and beauty.

“Our company’s focus has always been on providing new technologies and products to meet the growing needs of our customers. Restructuring our decorative concrete program to better meet our customer demand continues to build on our innovation,” commented Steve Johnson, General Manager and Vice President of Legacy Decorative Concrete Systems, Inc.

The products will create a classic, old-world effect using individual products, or a combination of several products. The Legacy Decorative Concrete System includes Artisan Overlays, FauxCrete, Perfetto~Espray, Impressions, Frescoe Stains, Venetian Microtops, Coloring Systems, Protectants, Signature and Classic Series Tooling Systems, and Design Images Vinyl Stencils.

“We’re excited about leading the way with our unequaled service team and equally top-notch decorative concrete systems as we respond to the growing demand of the architectural concrete industry,” noted Ron Cottingham, Vice President of Marketing and Finance for Legacy.

The product line is launching now, in time for contractors to incorporate into their upcoming projects. “Having a complete system means we can really make an impact for our customers,” added John Reynolds, Vice President of Technical Services and Product Development, “helping them to achieve truly remarkable projects that are durable and beautiful. Legacy Decorative Concrete Systems is a unique approach to meeting the needs of the skyrocketing decorative concrete market.”
