Bring ColorSelect accuracy and efficiency to mortar color with the patented Solomon Colors ColorSelect Dry Batching System. Use the automated Dry Batching System to accurately dose pigment to color mortar on your next masonry project.

**CONTROL**
The ColorSelect Dry Batching System utilizes an easy-to-use, highly accurate, Windows-based touch screen control interface. Job stacking and system fault alarms – including missing bucket – minimize the risk of user error. Custom and preset colors are easily accessible from the menu. Reporting and batch ticket printing make system and material management simple.

**SOLOMON ADVANTAGE**
All ColorSelect systems are designed and built by Solomon Colors in the United States.

Designated Solomon Colors service technicians are available nationwide and around the clock for troubleshooting, preventative maintenance, and repair to keep your plant up and running.

**FLEXIBILITY**
Solomon Colors ColorSelect systems offer unparalleled flexibility and adaptability. Dispense any number of colors with just three primary pigments. Simple electrical, network, and air requirements make placement simple. Modular designs and small footprints mean ColorSelect Dry Batching System can fit in even the most congested facilities.

**SPEED & ACCURACY**
The ColorSelect Dry Batching system contributes to a fast, efficient job. Dispense between 12 and 15 pounds of pigment per minute at an accuracy of +/- 0.05 pounds. Batch sizes can range between 2 and 35 pounds, making the Dry Batching System ideal for large and small jobs alike. Stacking totes and super sack refilling mean restocking doesn’t need to slow operations.

**SPECIFICATIONS**
- Target throughput: 12-15 lbs./min
- Batch size: Min: 2 lbs.; Max: 35 lbs.
- Scale accuracy: +/- 0.01 lbs.
- System accuracy: +/- 0.05 lbs.
- Electrical: 110 V, 30 Amp
- Compressed air: 4.5 CFM @ 60 PSI

**FOOTPRINT**
- 12’ x 10’ x 16’

**REQUIREMENTS**
- Electric: 100 V, 30 Amp
- Compressed air: 4.5 CFM @ 60 PSI
