Medical Facility

# Project Profile

**Project:** Medical Facility

**Profile:** Lythic Polished Concrete Products

**Materials:** Lythic Densifier  
Lythic Protector  
Lythic Cleaner

**Location:** USA

**Overview:** The private medical facility was a complete retro fit of an existing building. The existing floor was in bad condition after the VCT tile was removed. A cementitious half inch overlay was used to

re-level the entire floor. After a complete 7 stage grind and polish using the entire Lythic polished concrete system. Densifier, Protector and Cleaner

The clients expectations where exceeded with the overall flatness, gloss and reflectivity. The basic maintenance program of daily cleaning with Lythic Cleaner and weekly high speed burnish is all that is needed to keep this floor servicing the medical facility for years to come.
